## **DETAILED ACTION**

### ***Response to Amendment and Arguments***

1. Applicant's response to the last office action, filed February 7<sup>th</sup> 2005 has been entered and made of record.
2. Applicant has amended claims 1, 8, 17, 18, 23 and 32. Claims 1-35 are pending.
3. Applicant's arguments have been fully considered and are found persuasive.

### ***Allowable Subject Matter***

Claims 1-35 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant has amended claims 1, 8, 17, 18, 23, and 32 to overcome the rejection under 35 U.S.C. 102(e). As applicant has clarified in the remarks section on pages 9 and 10, the reference of McKeown performs warping and scaling differently than the present invention. Applicant has amended all of the independent claims to clarify that the two scaling factors are multiplied together in order to obtain the new pixel weight. This limitation distinguishes the applicants invention from the prior art reference of McKeown. All other claims depending from the independent claims are also allowed.

Applicant's arguments with regard to the 35 U.S.C. rejection of claims 18-22 found in the remarks section on page 8 have also been considered and found persuasive in view of the amendment to claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
